5 THINGS TODO WHEN VISITING ITALY SHRIYA BISWAS

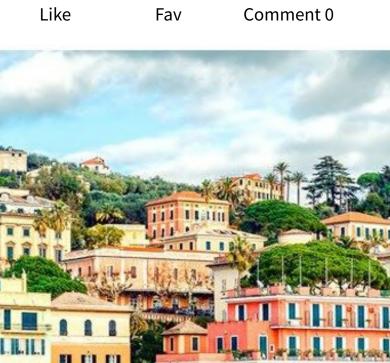

Baefikar present a Healthy

A+ A-

visited in 2019 and It was one of my best trips so far! Today, I will talk about 5 things which are a must while your visit ITALY.

It was founded by Pope Julius II in 1506. It is surrounded by Rome. It has the Vatican Museums which house ancient Roman sculptures such as the famed "Laocoön and His Sons" as well as Renaissance frescoes in the Raphael Rooms and the Sistine Chapel, famous for Michelangelo's ceiling. It became independent in 1929. It has the world's most famous paintings and sculptures and its economy is supported by donations and by the sale of souvenirs. It is a must visit when in Rome. The ticket prices vary from 8 to 9 Euros.

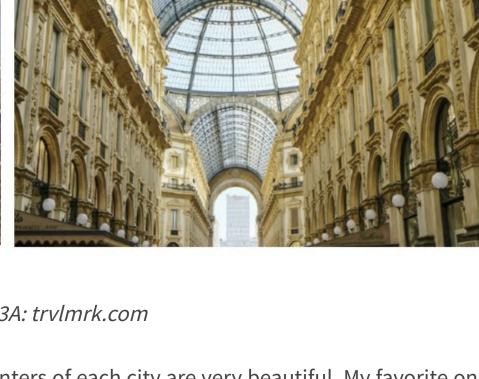

2. Enjoy eating Gelatos and Pizza's - My favorite part of Italy was its food. I love continental food and the most famous is Italian food specially the universally loved Pizza's and Pasta. Italy is famous

from 4-5 Euros depending upon the size of the ice cream.

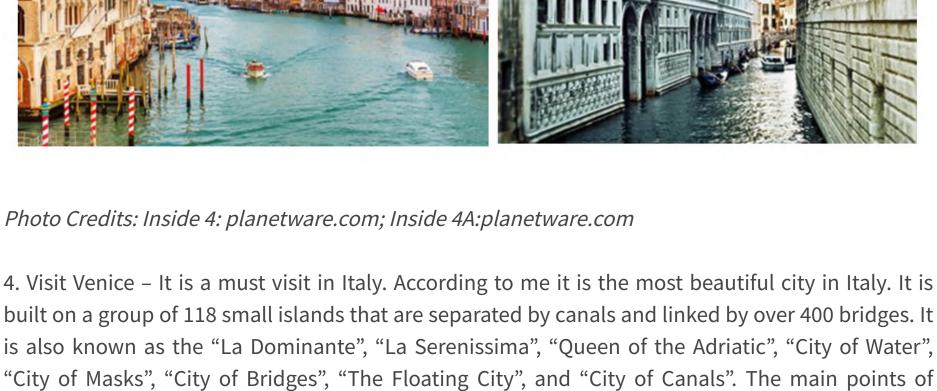

for its pizzas and almost in every restaurant there is a special menu with a variety of pizza's. Over there the pizzas are differently made; the dough is much softer and fresh vegetables are used and are served piping hot. Their price is about 8 euros which often goes up depending on the restaurant and its location. However, I would suggest eating in local pizzerias rather than fancy restaurants as the taste is more authentic and the prices more reasonable here. Italy is also known for its luscious gelatos. You find gelatos in almost every corner of the country. They're served with chocolate sauce, vanilla cream, strawberry and mint toppings, etc. Prices vary

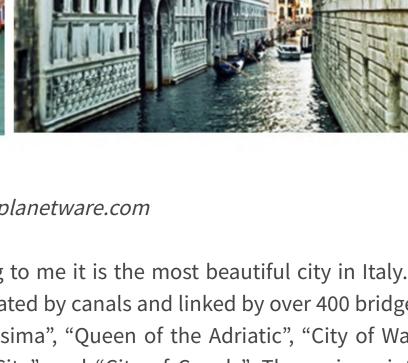

till dateis Milan, which was magnificent. Milan's city center is always filled with crowds, different people doing different things. The buskers perform a variety of acts to earnmoney such as street dancing, singing songs and playing musical instruments, etc., and do this very well too! Usually the

city centers of most cities are great for photo opportunities with their beautiful churches among the pigeons, parks, shopping gallerias and classical architecture. However, photos are strictly forbidden to be taken inside churches, and should you decide to violate this order you will be severely fined! It is also a good spot for shopping. All the things that they sell there are local and are of very good quality and the pricesare quite reasonable. So, be sure to shop from here only!

Basilica. Venice has no roads only canals. It is very amusing to think that people live their everyday lives by the river.

Murano Glass, Venetian Masks, Door Knockers, paper products, etc.

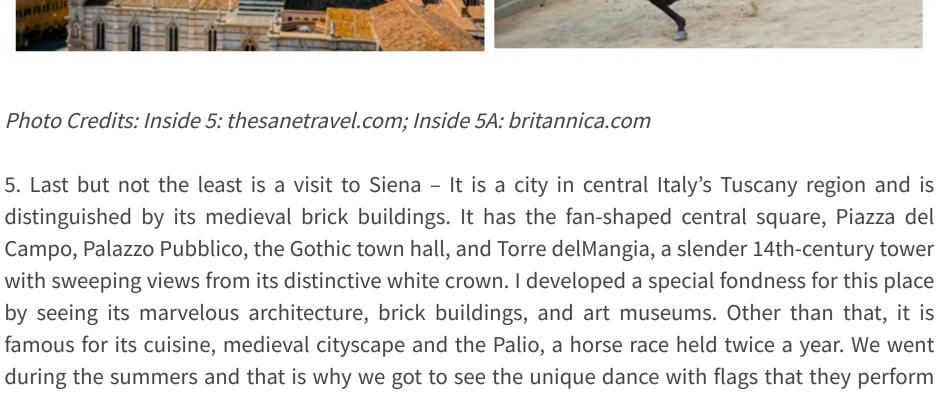

gives you a tour of the entire city. It is a must activity in Venice with fixed prices.

In Venice you will find different varieties of food. But the most unique thing in Venice is its 'lagoon aquaculture', which provides the city with specialty seafood and which is not available anywhere else in Italy. Those who are interested in art, Venice is a must for you then as it contains numerous art galleries and museums where ideas for paintings and drawings can be taken. Venice again has cool photography opportunities with its winding canals, striking architecture, and beautiful bridges.

Local shopping can be done in Venice, but the rates are high. The things that can be brought are

The Gondola Ride was also one of the most memorable experiences I had in Venice. The gondola

interests in Venice are the Rialto Bridge, Murano and Burano, Doge's palace and Saint Mark
